

Instructions for emergency situations

Adolescent Psychiatry Ward J1

Evaluations of the need for voluntary or involuntary inpatient care are conducted at Adolescent Psychiatry Ward J1 (Tel. 02 313 1717).

Young people (aged 13–17 years) who have received an M1 referral will be referred to the Adolescent Psychiatry Ward during office hours. As the arrival of a new young person often requires arrangements on the ward, we ask you to contact the ward by phone before sending the young person to the ward (Tel. 02 313 1717).

Consultations during office hours

Consultations during office hours relating to outpatient care:

- If the young person does not yet have a treatment contact with Tyks Adolescent Psychiatry, we will conduct an assessment of the need for care at the Adolescent Psychiatry Intensive Outpatient Care Unit (Tel. 02 313 1722).
- If the young person has a treatment contact with Adolescent Psychiatry, the persons treating the teenager will be consulted in the first instance.
